

GRIMGOATS

\$GRIMS · The Herd Token

BUILT DIFFERENT. BUILT TO LAST.

LITE PAPER · v0.1

Not financial advice. Definitely goat advice.

■ INTRODUCTION

Welcome to the Herd

Every cycle gets flooded with the same thing — a dog, a frog, a cat, a promise, a rug. We're not here for any of that.

GrimGoats is a community-first token built on Robinhood Chain that rewards people who actually stick around: no impossible APYs, no magic money printer, no "trust me bro." Just a fixed supply, sustainable rewards, governance, staking, and a herd that decides where this thing goes next.

If you're looking for a quick pump, wrong pasture. If you're here to build something that survives multiple cycles — welcome home.

WHY GRIMGOATS

Goats survive. They climb impossible mountains. They don't panic, and they don't follow the crowd — they find higher ground. The market will do market things: memes will come, narratives will die. The Herd keeps grazing.

■ OVERVIEW

Token Overview

1B FIXED SUPPLY	0% BUY / SELL TAX	4 LOCK TIERS	100% GOVERNED BY HERD
---------------------------	-----------------------------	------------------------	---------------------------------

Name	GrimGoats
Ticker	\$GRIMS
Chain	Robinhood Chain (EVM)
Standard	ERC-20
Decimals	18
Maximum Supply	1,000,000,000 GRIMS

Minting

Never — fixed at deployment

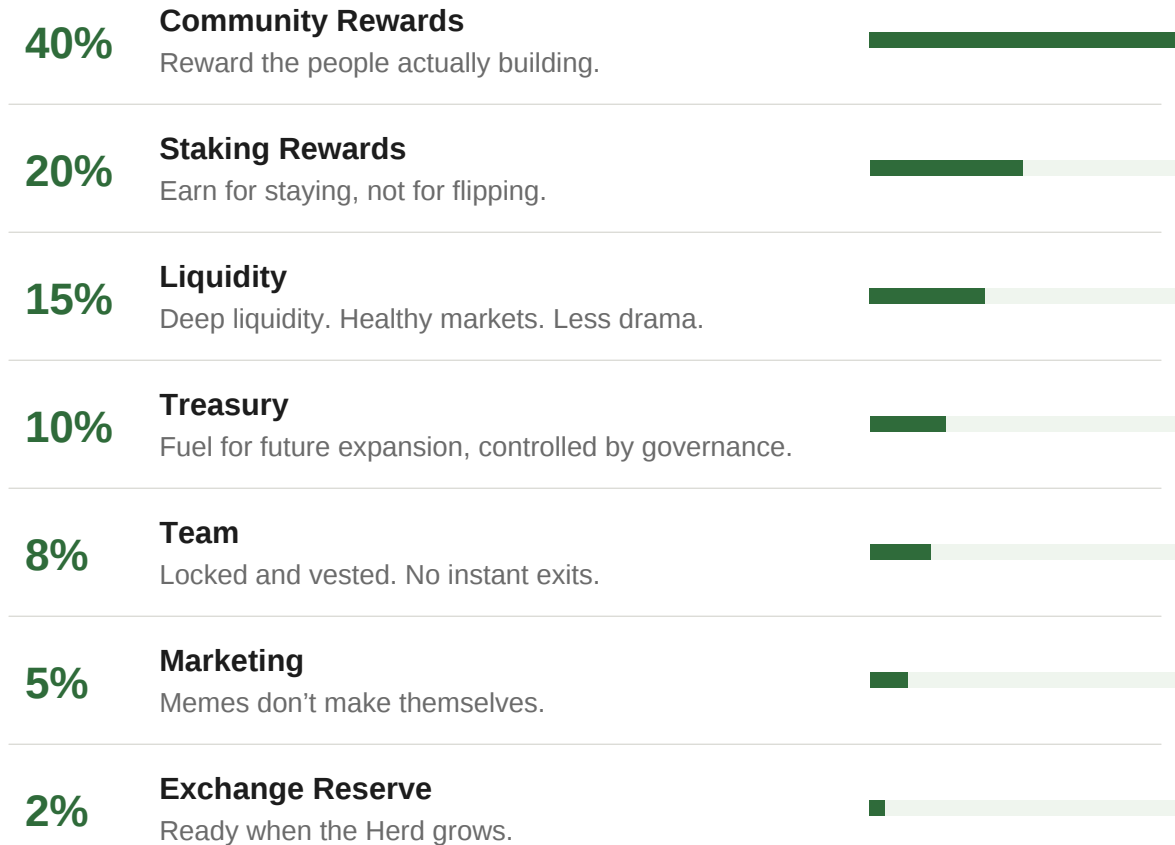

THE PHILOSOPHY

The best communities aren't bought — they're earned. Every long-term crypto winner has one thing in common: people stayed. \$GRIMS is designed around that simple idea. The longer you contribute, the stronger the Herd becomes.

■ DISTRIBUTION

Tokenomics

1,000,000,000 fixed supply, allocated as follows.

■ COMMUNITY

Built for Holders

Not traders. Not bots. Not whales. Holding GRIMS unlocks the ecosystem:

- Governance voting
- Staking rewards
- Future NFT integrations

- Community events
- Exclusive drops
- Merchandise
- Ecosystem perks
- The right to tell newcomers you were early

■ REWARDS

Staking

Stake your GRIMS. Touch grass. Come back later. Choose your commitment — longer commitment, better rewards. Simple, predictable, sustainable. No ridiculous 5,000% APYs that disappear next Tuesday.

30 Days	90 Days	180 Days	365 Days
---------	---------	----------	----------

LOYALTY MATTERS

Holding isn't just holding — it's reputation. Every wallet earns a rank: Bronze, Silver, Gold, Grim Elder. Higher tiers unlock more influence, more rewards, and more opportunities as the ecosystem grows.

■ STRUCTURE

Governance

No central overlords. No secret Discord council. The Herd votes on treasury spending, community grants, burn proposals, partnerships, new utilities, and future ecosystem expansion. If you hold GRIMS, you have a voice.

■ STANDARDS

Security

- ✓ Fixed supply
- ✓ No hidden mint
- ✓ No honeypot
- ✓ No buy tax
- ✓ No sell tax
- ✓ No reflection gimmicks
- ✓ Community governance
- ✓ Multi-signature treasury
- ✓ Timelocked proposals

■ ECOSYSTEM

Utility

\$GRIMS isn't just something you watch on a chart — it becomes the currency of the GrimGoats ecosystem, used for:

- NFT mint discounts
- Marketplace perks
- Exclusive community access
- Merchandise
- Governance
- Future games
- Creator rewards
- Partner projects

Roadmap

PHASE 1 The Awakening

- Launch GRIMS
- Liquidity locked
- Community onboarding
- Staking goes live
- First governance vote

PHASE 2 The Herd Grows

- Community campaigns
- NFT integration
- Marketplace utility
- Strategic partnerships
- Governance expansion

PHASE 3 Built Different

- Merchandise
- IRL events
- Gaming integrations
- Creator ecosystem
- Community grants
- Cross-chain opportunities

PHASE 4 Beyond the Fence

- Everything after this is decided by the Herd. Not us. That's the point.

The Long Game

Crypto moves fast. Communities don't. The projects that survive aren't always the loudest — they're the ones people refuse to leave. That's what we're building: a token people actually want to own five years from now, not five minutes.

Crypto doesn't need another token. It needs better communities. The charts will pump. The charts will dump. Memes will come and go. The Herd stays.

Welcome to GrimGoats.
Built Different. Built Together.
